---

The attached Terms of Participation are recognised as legally binding in all parts.

Date/Month/Year

Company stamp of the main exhibitor and legally binding signature
Terms of Participation

1. Admission

All domestic and foreign suppliers in the Distribution, Materials Handling and Information Flow Technology segments are eligible to participate. The organiser declares the admission of an exhibitor to be at its own discretion. Exhibitors may only sub-let or assign their stands in full to third parties upon receipt of written authorisation from the organiser. The exhibitor has no right of termination should the organiser refuse authorisation to sub-let. Desired locations will be assigned to exhibitors, but no firm commitments will be given and a deviating position is no reason for a cancellation.

2. Terms of payment

The confirmation of your order, which you will receive from Expolink Global Network Limited, is important for the occupation of your stand. The stand rental must be paid 50% by 1 month after sign quotation and paid 100% by 30 days after the first installment payment. If the sum is not paid by then, Expolink Global Network Limited reserves the right to assign the space rented to another exhibitor in that case, a handling fee of 30% of the stand rental will be charged. In case of withdrawal, upon receipt of withdrawal by 2021 30% of the stand rental fee must be paid. In case of withdrawal after 15 August 2021 the entire stand rental fee must be paid. (This is also valid for applications after the official deadline). Technical services will be provided and invoiced direct between the exhibitor and the company that runs the exhibition centre. The technical guidelines are part of the contract. Should the exhibitor provide the stand with the necessary power connections, the power connections for electricity, and telephone, gas, water supply and drains, and compressed-air outlets, as well as vents, must be freely accessible at all times. If necessary, they may be used by neighbouring exhibitors. No welding (electric or oxyacetylene) may be done in the halls. Instructions by the lessor are binding to the tenant and the subtenants. The technical guidelines of the IMPACT Exhibition Center will apply.

3. Cancellation of the contract

The organiser is entitled to curtail the trade fair, temporarily close all or part of the trade fair or close the stand renting space for any reason (e.g. legal reasons). In this event the exhibitor cannot claim for damages. In the event of postponement the exhibitor may object in writing within a period of 2 weeks after notification of the alteration. The organiser is entitled to rescind the rental agreement or to terminate the rental agreement, e.g. if the exhibitor comes into insolvency proceedings or bankruptcy proceedings or if the company of the exhibitor goes into liquidation. This also applies in the event that the exhibitor has outstanding debts to the organiser or the trade-fair company deriving from participation in exhibitions in the past and if the exhibitor fails to meet obligations arising from the rental contract or the terms and conditions of participation. In such cases the provisions concerning premature withdrawal by the exhibitor within the specified deadlines will apply. The exhibitor has no right to claim damages.

The exhibitor may only offset counterclaims against stand rental, additional costs or any other claims arising out of the rental agreement to the extent that said counterclaims are uncontested or have legal force. In the event of failure to pay on the part of the exhibitor the exhibitor is entitled to retain the rental fee and stand equipment and to auction by public tender any objects and equipment at the exhibitor’s expense or to sell said objects and equipment privately. Where permissible under law, the legal stipulations concerning the enforcement of a lien are hereby suspended.

4. Stand construction

The maximum stand height is 5 m. Taller stands of up to a maximum of 7 m will need to be approved by a civil engineer and submit the Safety Certified Letter. The spaces on the side of this leaflet that project above adjacent stands may not be used for advertising purposes. Open side stands may be closed with walls to a maximum of 1/3. Stands with more than 30 square metres of enclosed space have to be fitted with a sprinkler system. During the exhibition no setting up, rearrangement or dismantling of stands may take place. The guidelines for stand construction of the organiser shall apply. No posters, stickers or anything else must be attached to staircases, corridors or walls. Any posters or stickers that are put up in these places will be removed at the exhibitor’s expense. The distribution or display of brochures and advertising material outside the rented stand or the displays or distribution of advertising material in the corridors, entrances etc. is only permitted after written authorisation from the organiser and at the exhibitor’s expense and is only permitted if the company that runs the exhibition centre allows. Stickers and similar decoration materials which are put up in the stand must be fastened in such a manner that they can be removed easily, without damaging the panels.

The use of loudspeakers is not permitted.

Presentation at stands must be arranged so that there is no visual or acoustic disturbance from the stands that surround it. Walls adjoining visitor aisles should be given variety by the inclusion of showcases, niches, passages, etc. The preparation of food at the stands is not permitted, because of the nuisance to others from smells.

For safety reasons, no objects whatsoever may be placed in the corridor areas. Closings off corridors for reception parties and the like is not permitted. Signs, flags etc. must not be hung over the corridors, nor may any kind of carpeting be laid on the corridors. The stand may be guarded exclusively by companies which have been authorised by the company that runs the exhibition centre. The stands must be designed without corners that are difficult to monitor. Side rooms may only be arranged if possible, but no firm commitments will be given and a deviating position is no reason for a cancellation.

All materials used in setting up or furnishing the stand must have fireproof impregnation, or must be made otherwise flame-retardant. This applies to flags as well. During the official inspection, the Fire Department can require corresponding certification and take samples. Flares, fire extinguishers, hydrants, and signboards to these items, must remain visible at all times. Terminal boxes for electricity, and telephone, gas, water supply and drains, and compressed-air outlets, as well as vents, must be freely accessible at all times. If necessary, they may be used by neighbouring exhibitors. No welding (electric or oxyacetylene) may be done in the halls. Instructions by the lessor are binding to the tenant and the subtenants. The technical guidelines of the IMPACT Exhibition Center will apply.

5. Dates for setting up and dismantling

Please find dates for setting up and dismantling in the Exhibitor Manual.

6. Storage of packaging materials

Special items, boxes, and display fair forwarders for storing crates, packing material, and other items. Storing such items in the exhibition halls or the safety zones is prohibited by order of the Fire Department.

7. Safety regulations

All exits and corridors which are laid out in the hall must be kept free over their entire width. The exits must not be draped or made unrecognisable. Information stands or tables must not be placed next to entrances, exits, or stairwells. The lights, loudspeakers, or other technical installations may only be operated by the organiser. Electricity and other energy and water supply may only be consumed with the prior permission of the organiser that runs the exhibition centre. Power connections are billed separately, and the wattage will be monitored.

Hazardous or explosive substances may not be brought into the exhibition centre. All radio communications at the exhibition site must be proven to be compatible, i.e. not interfere with flight operations. Authorisation is required for any operation of WLAN and laser equipment in the halls. Use of laser equipment is not allowed on the open-air site.

8. Liability

The stand of the tenant concerned will be held fully liable for damage to the stand material, fittings, floors, walls, ceilings, etc. If special cleaning work is necessary at the stands after the end of LogiMAT | Intelligent Warehouse, the costs will be charged to the respective tenant. Expolink Global Network Limited as the organiser exercises domiciliary rights. During the event, the trade fair association and representatives of Expolink Global Network Limited will supervise the rented space. Approval must be obtained for all special wishes which exceed the standard rules. The instructions of the supervisory personnel must be respected. The stands must be staffed throughout the opening hours of LogiMAT | Intelligent Warehouse. Any party leaving or taking down its stand prematurely will be automatically excluded from the next LogiMAT | Intelligent Warehouse. All exhibitors promise not to conduct any parallel event inside or outside the exhibition centre during the opening hours of LogiMAT | Intelligent Warehouse. Supplements to standard exhibition stands, such as the attachment of name panels, or the installation of lighting fixtures, may only be carried out by the firms authorised by the organiser.

In respect of the claims of the organiser arising out of the rental agreement, the organiser has a landlord’s lien on the property and objects of the tenant. The exhibitor is liable in accordance with the statutory provisions for all damage caused by him or his employees. He will indemnify the organiser of the event and the company that operates the exhibition centre from all third-party claims, of whatever nature.

9. Exclusion of liability

The organiser shall be liable to pay damages to the exhibitor, the event participants and other affected third parties, on any legal grounds, only in the case of gross negligence and gross negligence and in the event that it infringes key contractual obligations, also known as its cardinal obligations. The organiser is not liable for disturbance of the use of the rental space that the event is held in. The exhibition centre’s company will attempt to ensure a smooth course of LogiMAT | Intelligent Warehouse but assumes no liability for exhibition items, display material, decoration material and similar, nor for disadvantages and damages suffered by exhibitors as the result of incorrect catalogue entries and additional services. This does not affect liability on the basis of wilful or grossly negligent misconduct on the part of Expolink Global Network Limited or its employees. Any liability for ensuring unhindered setting up and taking down of stands is excluded.

10. Statement, written form, place of performance, jurisdiction, final provisions

The statute of limitations on all claims of the exhibitor on the organiser will be 6 months beginning on the date on which the trade fair terminates. If several exhibitors jointly hire a stand, each of them shall be liable as co-debtors. Any other arrangements, alterations, modifications or agreements must be made in writing and signed by both parties. The Applicable law and jurisdiction will be Thai law and Thailand.
